

Tomasi and Manduchi. CCV 1998  
Bilateral Filtering for Gray and Color ...  
Edge preserving filter by the combination of geomtric and photometric distances.

Xiao et al. ECCV 2006  
Bilateral filtering-based optical flow ...  
Weighting of spatial distance and intesity distance to enhance the optical flow

Quam, IU Workshop, 1984  
Hierarchical warp stereo  
Coarse-to-fine (multiresolution) technique

Buades et al., CVPR 2005  
A non-local algorithm for ...  
Non-local method

Horn and Schunck, AI 1981  
Determining Optical Flow  
Spatial smoothness and brightness consintancy

Rudin, Osher, Fatemi. Physica D, 1992  
Nonlinear total variation based noise ...  
Noise removal by nonlinear total variance

Wedel et al., Dagstuhl Workshop 2008  
An improved algo. for TV-L1 optical flow  
1. Reducing the influence of lighting via texture decomposition  
2. Median filtering to enhance optical flow estimation

Li and Osher, Commun. Math. Sci. 2009  
A new median formula with applications...  
Connection between mean filtering and L1- minimization

Baker et al. ICCV 2007  
A database and evaluation ...  
Evaluation methods and middlebury dataset (average EPE)

Sun et al., CVPR 2010  
Secrets of Optical Flow...
