

DIMORA DE MAURO

At the foot of Mount Etna, opposite the Mediterranean Sea, a lava stone treasure trove encloses the spirit of one of Catania's most ancient districts. The buildings of Dimora De Mauro, all around the courtyard, have been perfectly restored and have been owned by our family for more than a century.

In the wide frescoed halls of the noble building, in the terraces overlooking the old town and even in the apartments once hosting the craftsman workshops, each detail reveals the story of five generations. By bringing back these rooms to light and life, we preserved the grey colour of the Etnean basalt on the cross vaults and the flagstone flooring.

We have kept our traditions and our familiar warmth but decided to open our "town inside the town" out to the world.
